

FAST Farmer Applied Seed Treating System

Recommended for treating Barley, Soybean and Wheat seed

Dispenses fungicides, insecticides or inoculants.

Features & Benefits

- Directly mounts on a truck box or wagon
- 2.5 gallon pail hanger with mounting clamp (jug not included)
- Metering ball valve with scale
- 12VDC diaphragm pump with internal bypass
- Remote 20' ON/OFF switch cord assembly
- Available in 12VDC or 115VAC

Wand

- Jar cap fits 2.5 gallon jug
- Pick up tube and breather vent in jar cap
- Quick disconnect for cleaning and change out of treatment containers

Metering Ball Valve

- Adjustable
- For calibration/treat modes
- Easily accessible

Diaphragm Pump

- 12VDC
- 1.8 g.p.m. open flow
- For calibration/treat modes

Fittings

- Press-in lock design ensures solid fit, no leakage

Power Cord

- 12VDC with 35' battery cables
- 115VAC with 35' standard cord with plug

Auger Bracket

- Installs onto any auger conveyance system

Value Added Features

- Heavy-duty pail hanger and clamping mechanism
- Plastic measuring cup 12oz/400ml
- Compact and portable, ideal for field treating

Guide to responsible Seed Treatment

BEFORE APPLICATION	DURING APPLICATION
1. Use only high quality products specially designed and approved for seed treatment	7. Mix products properly according to the label; mix each product well with the water in the tank before adding the next product
2. Keep the products in a locked room that is approved for crop protection products	8. Avoid spillage. Thoroughly clean any spillage to avoid contaminating the environment and waterways
3. Read the label and the directions for use carefully before using the product, especially the safety requirements	9. Rinse the empty containers three times, pour the rinse water into the mixing tank and recycle the containers
4. Protect yourself effectively - use gloves, glasses, mask, overalls, boots - as appropriate and according to each product label	AFTER APPLICATION
5. Regularly check, maintain and adjust the seed treatment equipment to ensure accurate application	10. Ensure that access to treated seeds is not possible for children, the public or domestic animals
6. Treat only well cleaned seed to avoid contamination of yourself and the equipment by contaminated dust	11. Avoid contamination of your hands when handling treated seeds
	12. Clean the protection equipment. Wash your hands. Take a shower
