

# Inoculant Tank 79230745 Cone Bottom Poly

## Recommended for treating Soybean seed

Pumps an inoculant product from a 15 gallon cone bottom poly tank to a treatment system, for final application on soybean seed.

### Features & Benefits

- Metering Flow Control Valve with gauge, regulates product going to the treater
- Recirculation Valve allows product flow to the treater or back into the tank
- Shut-Off Valve for easy filter change
- 115 VAC Pump 1.4 g.p.m. (based on water) with built-in bypass protection from excess pressure
- Screw On Plastic Lid for easy filling and cleaning

**Tank Dimensions: Height 39.90" Diameter 24.00"**

**Metering Ball Valve with Gauge**

- Regulates even flow of treatment product to the treater
- Adjustable for volume control
- Quick disconnect NPT fittings for easy cleaning
- Recirculation/calibration/treatment valve

**115 VAC Pump**

- Built-in bypass protection
- 1.4 g.p.m. output (based on water)
- Quick disconnect NPT fittings for easy cleaning

**In-line Filter**

- Strainer basket with #20 mesh filter
- Shut-off valve for easy cleaning/changing
- Filters chemical for debris prior to pump

**Plastic Tank Lid**

- Easy to open lid for filling/cleaning tank
- 10-3/4" opening

**Value Added Features**

- Lightweight and portable
- Sturdy steel stand with built-in pump base
- Cone shaped tank for easier drainage
- UV protected, resistant to chemicals, impact and abrasion
- Adapts well to treating systems
- Easy cleanup requires no equipment breakdown

**Guide to responsible Seed Treatment**

BEFORE APPLICATION		DURING APPLICATION	
1	Use only high quality products specially designed and approved for seed treatment	7	Mix products properly according to the label; mix each product well with the water in the tank before adding the next product
2	Keep the products in a locked room that is approved for crop protection products	8	Avoid spillage. Thoroughly clean any spillage to avoid contaminating the environment and waterways
3	Read the label and the directions for use carefully before using the product, especially the safety requirements	9	Rinse the empty containers three times, pour the rinse water into the mixing tank and recycle the containers
4	Protect yourself effectively - use gloves, glasses, mask, overalls, boots - as appropriate and according to each product label	<b>AFTER APPLICATION</b>	
5	Regularly check, maintain and adjust the seed treatment equipment to ensure accurate application	10	Ensure that access to treated seeds is not possible for children, the public or domestic animals
6	Treat only well cleaned seed to avoid contamination of yourself and the equipment by contaminated dust	11	Avoid contamination of your hands when handling treated seeds
		12	Clean the protection equipment. Wash your hands. Take a shower
