

# TST 30 Gallon 79234392 Total Slurry Treater

**Recommended for treating Barley, Wheat and most Cereal seed**

Dispenses fungicides, insecticides or inoculants.

#### **Features & Benefits**

- 30 Gallon Poly Tank
- Metering ball valve with scale
- 115VAC diaphragm pump with internal bypass
- Remote ON/OFF Switch with 20' Cord, operates both the pump and agitation motors
- Auger Bracket installs easily onto any auger conveyance system. Optional two brackets and splitter "Y" fitting for more coverage.

**Treater Dimensions: 30 gallon model: Height 52.86" Length 25.93" width 24.33"**

**Metering Ball Valve**

- Adjustable
- For calibration/treat modes
- Easily accessible

**Diaphragm Pump Motors**

- 115VAC with Internal Bypass Diaphragm
- 3.2 g.p.m. open flow
- For calibration/treat modes

**In-line Filter**

- In-line Filter 20 mesh

**Agitation Motor**

- 115VDC, 1ph, 60Hz
- Continuous-duty stirring, even when not pumping treatment product

**Value Added Features**

- Sturdy Tank Stand
- Compact and portable, ideal for field treating

**Guide to responsible Seed Treatment**

BEFORE APPLICATION		DURING APPLICATION	
1	Use only high quality products specially designed and approved for seed treatment	7	Mix products properly according to the label; mix each product well with the water in the tank before adding the next product
2	Keep the products in a locked room that is approved for crop protection products	8	Avoid spillage. Thoroughly clean any spillage to avoid contaminating the environment and waterways
3	Read the label and the directions for use carefully before using the product, especially the safety requirements	9	Rinse the empty containers three times, pour the rinse water into the mixing tank and recycle the containers
4	Protect yourself effectively - use gloves, glasses, mask, overalls, boots - as appropriate and according to each product label	<b>AFTER APPLICATION</b>	
5	Regularly check, maintain and adjust the seed treatment equipment to ensure accurate application	10	Ensure that access to treated seeds is not possible for children, the public or domestic animals
6	Treat only well cleaned seed to avoid contamination of yourself and the equipment by contaminated dust	11	Avoid contamination of your hands when handling treated seeds
		12	Clean the protection equipment. Wash your hands. Take a shower
